## OUR MISSION

Making life better, safer and smarter  
– everywhere, around the clock.

In recognizing that the potential within people is the most valuable and renewable asset in any organization, through value adding partnerships and strategic alliances, our mission is to provide clients across Zimbabwe, the Southern African region and Africa as a whole with anti-hijack, theft recovery, control, monitoring, asset management, security and fleet management solutions using the vast experience gained over the years and embracing new technologies and ideas in this everchanging world, and thus contribute meaningfully to the true Renaissance of Africa.

## OUR VISION

To champion the use of telemetry and complimentary technologies in Africa and beyond.
